

Due to some confusion with this tab

we have now changed the format so that all topics are in the drop down options.

**Please click on the drop down topic of interest.**

Under the section we cover information on our current/recent litters of kittens under the 'Kittens and Litters' drop down option. We also show you detailed examples of how and where our kittens are raised . Finally we discuss open dates and times and what colour options will be available for viewing when under the 'Visiting Us' option.
